PROFESSIONAL SUMMARY

Senior Frontend Developer with 5+ years of experience building scalable, high-performance web applications using Vue.js, Nuxt.js, TypeScript, and modern JavaScript frameworks. Proven track record in translating complex UI/UX designs into responsive, accessible front-end solutions and integrating RESTful APIs. Experienced in Agile/Scrum environments with strong skills in integration testing, performance optimization, and cross-functional collaboration. Adept at mentoring junior developers and driving code quality through rigorous code reviews.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS

Frameworks & Libraries: Vue.js, Nuxt.js, Aurelia Framework, Quasar, Vuetify, Cordova

Tools & Platforms: Git, GitHub, Azure DevOps, Figma, Adobe XD, Docker, Linux

Testing & Methodologies: Integration Testing, Test-Driven Development (TDD), Agile/Scrum

Other: REST API Integration, Performance Optimization, Responsive Design, CI/CD, Code Reviews

PROFESSIONAL EXPERIENCE

Senior Frontend Developer
Jun 2025 – Present

Avvoka | London, England (Remote)

- Architect and develop front-end features for a legal technology SaaS platform serving enterprise clients, using Vue.js and TypeScript in an Agile environment.
- Implement integration tests and streamline developer experience tooling, reducing onboarding friction and improving deployment confidence.
- Collaborate with UX/UI designers and backend engineers to translate Figma designs into accessible, high-performance front-end components.
- Conduct performance audits and implement optimizations to improve page load times and Core Web Vitals scores.

Senior Frontend Developer
Nov 2023 – Present

CAPLINQ Corporation | Alabang, Metro Manila

- Lead front-end development for the company's public-facing website and internal tools using HTML, CSS, JavaScript, and Vue.js.
- Introduced integration testing practices and optimized the CI/CD pipeline, improving release reliability and developer productivity.
- Regularly refactor and maintain the codebase to ensure scalability, reducing technical debt and improving maintainability.
- Conduct performance testing and optimization resulting in measurably faster load times and improved mobile responsiveness.

Frontend Developer
Jul 2023 – Oct 2023

IT Americano Inc. | Makati, Metro Manila

- Maintained and enhanced live casino gaming applications, diagnosing and resolving critical bugs to improve user experience and platform stability.
- Implemented new gameplay features using Vue.js, TypeScript, LayaAir IDE, and FairyGUI, increasing user engagement and session duration.
- Resolved internationalization (i18n) and translation challenges, ensuring accessibility for a global, multilingual user base.

Frontend Developer
Jan 2023 – Jun 2023

Cashbee Lending Services | Muntinlupa, Metro Manila

- Translated UI/UX mockups into pixel-perfect front-end code and connected components to backend REST APIs for a fintech lending platform.

- Applied Test-Driven Development (TDD) principles, writing comprehensive unit and integration tests to maintain code quality.
- Converted Vue.js web applications to cross-platform mobile apps using Quasar Framework, deploying to both Android and iOS.
- Managed version control with Git Flow branching strategy, ensuring smooth collaboration across distributed teams.
- Deployed and maintained applications on Linux servers, consistently meeting sprint deadlines and release schedules.

Software Developer
Jan 2020 – Dec 2022

Bizmates Philippines Inc. | Muntinlupa, Metro Manila

- Developed new product features using modern ES6+ JavaScript standards, contributing clean, maintainable code to a large-scale codebase.
- Conducted peer code reviews to enforce coding standards and share best practices, improving overall team code quality.
- Played a key role in Agile/Scrum ceremonies including sprint planning, daily standups, and retrospectives.
- Transformed complex UI/UX designs into responsive, cross-browser-compatible front-end implementations that exceeded client expectations.
- Identified and resolved bugs in production features, improving application stability and client satisfaction.

Desktop Support Engineer
May 2018 – Nov 2018

AllValue Holdings Corp. | Alabang, Metro Manila

- Provided technical support for hardware, network, and POS system issues, minimizing downtime and boosting employee productivity.
- Configured cybersecurity tools including antivirus software and resolved printer and peripheral device issues across the organization.

EDUCATION

Bachelor of Science in Information Technology
Jun 2015 – Jun 2019

San Beda College Alabang, Metro Manila

CERTIFICATIONS

- HTML5 Application Development Fundamentals – Microsoft
- Microsoft Technology Associate: Software Development Fundamentals
- ES6 JavaScript: The Complete Developer's Guide
- Certificate of Training in Creative Web Development Level III
- Certificate of Training in Creative Web Design Level III
