JERARD PELAEZ

Senior Frontend Developer

Las Piñas, Metro Manila, Philippines

pelaezjerard@gmail.com • +63 956 510 2922 • LinkedIn • Portfolio

PROFESSIONAL SUMMARY

Senior Frontend Developer with nearly 6 years of experience building scalable, high-performance web applications using Vue.js, Nuxt.js, TypeScript, and modern JavaScript frameworks. Proven ability to translate complex UI/UX designs into responsive, accessible front-end solutions and integrate RESTful APIs across diverse industries including legal tech, fintech, edtech, and live gaming. Experienced in Agile/Scrum environments with demonstrated expertise in integration testing, performance optimization, and cross-functional collaboration. Adept at mentoring junior developers, driving code quality through rigorous reviews, and contributing to architectural decisions that improve system maintainability.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS
Frameworks & Libraries: Vue.js, Nuxt.js, Aurelia Framework, Quasar, Vuetify, Cordova
Tools & Platforms: Git, GitHub, Azure DevOps, Figma, Adobe XD, Docker, Linux
Testing & Methodologies: Integration Testing, Test-Driven Development (TDD), Agile/Scrum
Other: REST API Integration, Performance Optimization, Responsive Design, CI/CD, Code Reviews

PROFESSIONAL EXPERIENCE

Senior Frontend Developer   *Jun 2025 – Present*
Avvoka | London, England (Remote)

- Build front-end features for a legal tech SaaS platform used by enterprise clients and major law firms, working with Vue.js and TypeScript on a daily basis.
- Translate Figma designs into accessible, high-performance components while collaborating closely with UX designers and backend engineers.

Senior Frontend Developer   *Nov 2023 – Present*
CAPLINQ Corporation | Alabang, Metro Manila (Hybrid)

- Build front-end development for the company's public website and internal tools using HTML, CSS, JavaScript, Vue.js, and Aurelia Framework.
- Regularly refactor the codebase to cut down technical debt and improve long-term maintainability.
- Mentor junior developers through code reviews and pair programming sessions, fostering a culture of continuous improvement.

Mid Frontend Developer   *Jul 2023 – Oct 2023*
IT Americano Inc. | Makati, Metro Manila (On-site)

- Maintained and built features for live casino gaming applications using Vue.js, TypeScript, LayaAir, and FairyGUI.
- Diagnosed critical bugs to improve platform stability and overall user experience.
- Handled internationalization challenges to support a global, multilingual user base.

Mid Frontend Developer   *Jan 2023 – Jun 2023*
Cashbee Lending Services | Muntinlupa, Metro Manila (On-site)

- Built the front end for a fintech lending platform, turning UI/UX mockups into pixel-perfect code connected to REST APIs.
- Followed TDD practices, writing comprehensive unit and integration tests to maintain high code quality standards.
- Converted Vue.js web apps into cross-platform mobile apps using Quasar Framework for both Android and iOS.

Junior Frontend Developer   *Jan 2020 – Dec 2022*
Bizmates Philippines Inc. | Muntinlupa, Metro Manila (Hybrid)

- Grew from junior to mid-level developer over three years on a large-scale edtech platform, earning recognition as a go-to code reviewer on the team.
- Shipped product features in ES6+ JavaScript, contributing clean, maintainable code to a large-scale codebase.

- Turned complex designs into responsive, cross-browser-compatible interfaces that consistently exceeded client expectations.

Desktop Support Engineer   *May 2018 – Nov 2018*
AllValue Holdings Corp. | Alabang, Metro Manila

- Provided technical support for hardware, network, and POS system issues, minimizing downtime and boosting employee productivity across the organization.
- Configured cybersecurity tools including antivirus software and resolved printer and peripheral device issues.

EDUCATION

Bachelor of Science in Information Technology   *Jun 2015 – Jun 2019*
San Beda College Alabang, Metro Manila
